Short Breaks

As a result of staffing issues with Liberty and Cherry Tree House the Short Break facilities at Liberty House had not been available over the Christmas period.

At short notice YMCA White Rose stepped in to provide additional activities and support to a number of children. This involved pulling in additional staff to provide 1:1 support for some children to include them into existing sessions, as well as additional sessions and outreach work. The result provided additional support for activities across 6 days of the week.

The ability of the YMCA White Rose to step in and deliver provision at such short notice was possible because of the existence of the Aiming High for Disabled Children programme.

Had this programme not been in place the working relationships with the provider would not have existed to deliver the sessions.

Of the 8 children who attended all have expressed interest in continuing, 5 have signed up to attend activities in the future and 2 have already started attending.

The Inspiring Youth Award Programme

TWO students with Visual Impairments (VI) showcase their skills they have developed from the VI team for The Inspiring Youth Award Programme.

The programme is run by South Yorkshire Police in partnership with Schools in Sheffield and Rotherham. It aims to develop the potential in young people to perform better in school, at home and in their own community.

The VI Team provided the students with an extended curriculum in the following specialist areas, Habilitation skills, Braille skills and Specialist Technology skills to help complete the 4 categories of the Inspiring Youth Award Programme.

Both students really enjoyed this project as it has showcased the skills they have developed with the support from the Visual Impairment Team.

We provide a life line for families living with the daily challenges faced when caring for a child with additional, often life changing needs and life limiting conditions or illnesses.

From play based Saturday and school holiday sessions, therapeutic sensory room sessions, life skills learning support, to support in the home or hospital, providing information and advice or just being a familiar voice at the end of the phone to talk to when things get difficult, we support families with all aspects of daily life.

We are a small charity governed by a voluntary board of directors and have no paid fundraisers so every penny raised goes directly to the care and support of our families.

Our aim is to provide love and 'joy' in the children's lives.
